

SPRING POINT LEDGE LIGHT

South Portland, Maine

Guidelines and Procedures for Lighthouse Openings

Volunteers are our most valuable resource! We look forward to working with you to share this beautiful piece of history with the public.

For Everyone's Safety:

- The Responsible Trustee for each opening is in charge of opening and closing the Lighthouse.
- No one should be in the Lighthouse alone! Check all floors before closing up.
- Be sure to sign in and leave your cell phone number at the ticket booth if you are heading out the lighthouse.
- Take a walkie-talkie with you or be sure another volunteer or a Trustee has one.
- Always wear a nametag. We will keep them at the ticket booth.
- Individuals must be at least 51" tall to enter the lighthouse. There is a measuring mark on the ticket booth and on the lighthouse.

Suggested Attire:

- An SPLLT t-shirt, lapel pin, or hat is suggested but not required.
- A windbreaker and sweater or fleece as the wind is often quite strong.
- Sturdy footwear, particularly if walking on the Breakwater and in the Lighthouse.

In the event of bad weather,
call 1-800-570-5703 ext. 3.

The message will be updated to reflect full-day closings, late openings or early closings.
